DOOR PRIZE: "A NIGHT OUT ON THE TOWN" - \$100 DOWNTOWN BOISE GIFT CARD

TESTIMONIALS FROM OTHER BOISE STATE DEPARTMENTS

"We are pleased to have found a vendor partner that is a local Boise company. In the past we have leased with large national vendors and have not had a good customer service experience, and we sought to change that with our evaluation process. Your company's responsiveness has been impressive and we are happy to be doing business with you."

Sean Ruetters | Chemistry Department | Boise State University

"I worked with Fisher's at a previous employer for over two years. We leased a copier and utilized a maintenance contract for a printer in the office. During that time, I had contact with Sales, Service and Training and was thoroughly impressed with their professionalism, knowledge and prompt service. I recently started a new job at BSU and was thrilled to learn the department's copier contract is with Fisher's. I highly recommend Fisher's Technology!"

Megan Dupre | School of Public Service | Boise State University

"I worked with a Konica printer/copier at a previous employer for over two years. When it came to evaluating a new copier at Boise State, the Fisher team did a wonderful job assessing our needs and finding a copier/scanner/printer that fit both our budget and met the department needs. They took the time to demonstrate the new Konicas at the Fisher office, provided multiple leasing options and once selected, pre-programmed our new copier with the 40+ staffs' emails and spent 1 1/2 days offering training modules to our staff. I was thoroughly impressed with their professionalism, knowledge and prompt service. I highly recommend Fisher's Technology!"

Janette Young | Admissions | Boise State University
