HIPAA

THE RISK & COST OF HIPAA VIOLATIONS

The numbers don't lie. Most HIPAA violations are easily preventable, and often the result of simple ignorance of the rules ... and/or simple adjustments to the computer network. Unfortunately, "I didn't know" isn't an acceptable excuse when it comes to being slapped with huge fines for HIPAA violations. A specialized HIPAA assessment is the best way to identify any potential risks and fix them before a costly breach occurs.

TARGETED AUDIENCE:
Medical and Health-related operations

MONTHLY RATE:
Determined by number of users and locations
Plans start at \$250/month

PRIMARY REPORTS INCLUDE:

- Security Risk Analysis
- HIPAA Policies and Procedures
- HIPAA Management Plan
- Evidence of HIPAA Compliance

Contact us today for a free initial consultation and quote to assess your network for HIPAA compliance.
