

# MANAGED IT with OFFICE 365 Powered by the CLOUD

## FISHER'S IS A MICROSOFT OFFICE 365 AND CLOUD PARTNER

Fisher's has teamed up with Microsoft to bring to our customers best-in-class productivity, collaboration, security and device management tools. These tools include cloud-hosted exchange (email) services and the familiar Office desktop applications which are always up-to-date with the latest features and fixes.

We built this program with iterative improvement and self-correcting action in mind. The next time an issue arises, resolution will come much faster.

Enable your people to be productive anywhere, on their favorite devices with an immediate, positive impact on how they perform their jobs.

Help protect your data and devices from one simple dashboard that is always up to date and working in the background.

With consistency and control, manage all of your IT services in one place and minimize the work so you can focus on what matters: Your business.

*Contact Fisher's today to see how managed IT can fit within your business!*
