

# COPIERS / PRINTERS

## Meter Readings

*Meter readings are typically required for invoicing our service contracts. The readings are taken on the same cycle as the contract overage terms (typically monthly or quarterly).*

***We have several methods by which we can collect meter readings:***

### **AUTOMATED READINGS**

Fisher's utilizes PrintFleet technology to automatically read meters off any device connected to your network. If this technology is installed on your network, Fisher's can access meter readings without any human interaction for your networked devices. You will simply see the meter values on your invoices. No personal or user data is collected with this software.

### **E-INFO WEB PORTAL**

You can enter meter readings into Fisher's E-INFO web portal. We will send you an email each cycle with a link to your section of the E-INFO portal. Click on the link and enter the meters for each machine.

### **PHONE COLLECTION**

Our contract billing department will call you at the end of each cycle to collect meter readings.
