MODERATOR

CHRIS TAYLOR CEO and Co-Owner of Fisher's Technology. During Chris's fifteen years at the helm, the 85 year-old Fisher's more than sextupled in size and received numerous awards including: Idaho's Best Places to Work, Inc. 5000, Boise Chamber 2013 Small Business of the Year, U.S. Chamber's Top 100 U.S. Small Businesses of the Year in 2014, and Idaho Business Review's 2017-2022 Reader Rankings (Best Office Equipment Company and Best IT & Tech Support Services in ID. Chris was also selected as one of the 2014 CEOs of Influence by the Idaho Business Review.

PANELISTS

CHRIS DIMOCK was inspired to start Elation after a career in the tech industry. His passion for helping people through the use of innovative technologies transitioned into a calling to help people flourish by applying what we know from neurobiology and mindset research. Chris lives in Cody, WY with his wife, Michaele. They have three children and seven grandchildren. Chris rarely stops thinking about how to help people improve their mindset, but fly fishing, woodworking and horseback rides all help keep him more grounded.

DUSTY EATON joined A&E Design in 2006 after completing his master's degree at Montana State University. Due to his exceptional design abilities and strong leadership skills, he became the firm's youngest partner in 2012. Eaton's passion for innovation and zeal for disrupting convention inspires his coworkers and, as a result, he was promoted to CEO in 2017. Since taking over this leadership role, Eaton empowers staff to find their "sweet spot"—the balance between doing what they love and loving what they do as individuals and a creative collective.

MICHAEL SANDERSON is CEO of Sanderson Bellecci, Inc. Michael previously served for 20 years as President/CEO of Sanderson Stewart, an award-winning engineering and planning firm with offices in Montana and Colorado. Sanderson Stewart was recognized in 2014 as America's Small Business of the Year by the US Chamber of Commerce and has been recognized multiple times as a "Best Firm to Work For" in the A/E industry. Sanderson Bellecci was formed in 2023 when Sanderson Stewart merged with additional firms to form a multi-discipline firm with nearly 200 employees.
